Operating Instructions

Correctly operating your watch it vital to maintaining the quality of the watch and movement.

- 1 Normal Position.
- 2 Date Correction Position.
- 3 Hand Setting Position. Stop-second with interruption of motor impulses.

Calendar Adjustment

Unscrew the crown counter-clockwise to release the crown before pulling it to position 2. Rotate the crown to adjust the date. Note: The date will change when the time is in the 12 hour PM range, this should be kept in mind when setting the date. Screw the crown clockwise to re-secure the crown & seal the watch.

Time Adjustment

Unscrew the crown counter-clockwise to release the crown before pulling it to position 3. Rotate the crown to adjust the time. Note: The calendar date will change if adjusting the time within the 12 hour PM range. Bear this in mind when setting the time to AM or PM. Screw the crown clockwise to re-secure the crown & seal the watch.

EOL End of life indicator

The Ronda 715 is a gold plated 5 jewel Swiss Made movement, they have a battery life of around 60 months, they have a power saving mechanism that is operated when you pull the crown out to location 3, the end of life indicator will make the second hand tick every two seconds when the battery is running down.

Crown

The crown is a twin lock construction, extra care must be taken when screwing the crown down, if you feel any resistance stop and unscrew, try to screw the crown down in another location, check the crown is screwed down tight before entering water.

Care of your Scurfa watch

We recommend you use a small soft toothbrush and mild soap, work in with the toothbrush then rinse off with fresh water.

Please check your winding crown is screwed down tight before entering water as damage caused by water entering a loose crown is not covered under warranty.

Always rinse your watch with fresh water after swimming.

Thank You...

Thank you for buying a Scurfa Watch, look after your watch and it will give you many years service, we have spares and endeavour to help with any problems you may experience in its lifetime we only ask you to be honest explaining any damage you may of caused.
